Kim,

Just wanted to thank you for saving Nigel. When I brought him in he could not stand up due to his advanced arthritis and age. At close to 15 years old he is doing pretty good for a golden retriever except for the arthritis.

He can now walk and get up by himself. Without your treatments we would have had to put him down. I don't know how much longer he has but at least he is now pain free and able to get around on his own.
